

Kindergarten Homework consists of a weekly packet.
These are sent home on Mondays and are to be returned
completed on Fridays.

Each week consists of:

- *Phonics skills currently being covered
- *Math concept currently being covered
- *Skills such as cutting, pasting, and COLORING neatly (all very essential skills which reinforce small motor skills)

Homework is a review of what is currently being learned in class, and the goal is that the additional practice at home assists your child in mastering grade level expectations. It is highly recommended that students complete the packet **THROUGHOUT** the week, not all at once.

Please assist your child, but do **NOT** complete the work for him/her. Please see me/send me a note if you have further questions, comments, or concerns.

Thank you.
